

Florida Inorganic Mini-Symposium

FIMS 2004

–including materials and
bioinorganic chemistry

Greetings all,

The Division of Inorganic Chemistry in the Chemistry Department of the University of South Florida is proud to host the 2004 **Florida Inorganic Mini Symposium (FIMS)**. The meeting in last fall was a great success. We are infinitely grateful to Professor George Christou and his students at the Chemistry Department of the University of Florida for initiating and organizing that landmark event. This year, the meeting moves south to Tampa where we will be able to reach our colleagues in the southern parts of the state as well, adding to the excitement of this event. On behalf of the Inorganic Division here at USF we would like to issue the call for abstracts of both oral (ACS format) and poster presentations. Remember this is an event where students are to present and get a chance to be in the spotlight. Following the tradition from last FIMS, we would restrict the oral presentation to one from each group. Below you will find the necessary information for submission. At a later date we will send driving directions to those not familiar with our beautiful campus and a time table for the event. Thank you in advance for your participation. I hope to see everyone here in the sunny/rainy/lightening Tampa Bay. Please pass this message to interested colleagues and students. Cheers!

2004 FIMS

Where: Univeristy of South Florida. 4202 East Fowler Avenue, Tampa FL.

When: October 30th 2004 (Saturday).

Abstract and/or title submission – please e-mail abstracts and/or titles to: gdasilva@mail.usf.edu. The abstract/title submissions should contain: name of presenter, research advisor's name, poster or oral presentation choice, area of study, title, and abstract (abstract is optional).

Deadline for submission: October 20th 2004.

Once again thank you,

Giordano F. Z. da Silva- student-organizer.
