Welcome back to school! This is to announce the Physical Chemistry Division Seminar Schedule for Spring 2016. If there is any change we will make follow-up announcement.

Physical Chemistry seminars will be held in **Leigh Hall Rm. 207** every Tuesday beginning at noon. Cookies and coffee are served at 11:50am. This spring we have we have a superb line-up of internal and external speakers. Titles and abstracts will be updated as that information becomes available.

**The first seminar date is 1/12.** Dr. Savin will give a brief overview of the semester, and a Division graduate student will give one talk.

**Registered CHM 6590 students:** Please remember to sign the attendance form at each seminar. You are allowed to miss a maximum of two seminars for the semester. If due to illness or other valid reason you are unable to make the seminar, let Dr. Savin know in advance. **Please note that signing in for other students is a violation of the UF Honor Code.** All students admitted to the University of Florida have signed a statement of academic honesty committing them to be honest in all academic work and understanding that failure to comply with this commitment will result in disciplinary action. Note that failure to comply with this commitment will result in disciplinary action compliant with the UF Student Honor Code Procedures. See [http://www.dso.ufl.edu/sccr/procedures/honorcode.php](http://www.dso.ufl.edu/sccr/procedures/honorcode.php)

Names of students responsible for refreshment setup are indicated for each seminar meeting on the schedule. Also, the person who will introduce the speaker is indicated on the ‘Host’ column of the schedule.

**Meet with the speaker for lunch:** When we have an external speaker, there will be an informal lunch with the speaker after the seminar, in the room indicated on the schedule. Lunch will be provided for all registered students for this class. This is a great opportunity to ask more scientific questions in a more relaxed environment. Don’t forget to ask insights from the speaker on career development.

All graduate students, not just those registered for CHM 6590, are strongly encouraged to regularly attend the seminars.

Members of other divisions and departments are warmly welcomed to attend, and **faculty participation is greatly appreciated.** Let’s show our students that we appreciate and value their hard work!
