

Syllabus

CHM 3120L ANALYTICAL CHEMISTRY LABORATORY

Fall, 2016

Faculty Instructor: Dr. Ben Smith, Keene-Flint 264, 392-0256, bwsmith@ufl.edu, Office Hours: M, W, F period 3

Teaching Assistants: Imran Iftikar imif6145@ufl.edu
Meghan White mookers@ufl.edu
Taylor Harmon taalharm@ufl.edu
Wenbo Peng wenbopeng@ufl.edu

Undergraduate Teaching Assistants:

Abel Abraham	abelabra@ufl.edu
Alec MacKinnon	alec118@ufl.edu
Ciara Sanon	Ciara.sanon@ufl.edu
Monica Scituro	mscituro@ufl.edu
Miriam Tarrash	mtarrash@ufl.edu
Melissa Andrews	mandrews24@ufl.edu
Jacob Dautel	jacobadautel@ufl.edu
Marc Nebb	mnebb1@ufl.edu
Megan Booth	mkbooth@ufl.edu
Megan Lee	meganrlee@ufl.edu
Maxym Tansky	mtansky@ufl.edu
Kathy Nguyen	knguyen24@ufl.edu

Course Website: Canvas; Please visit the website regularly for announcements and resources. Everything is posted under "Files"

Videos available at: <http://www.chem.ufl.edu/ugrad/labanalytical.shtml>

Required Materials

Laboratory Manual: No lab manual is required. All materials will be posted on the e-learning site, under Resources.

Laboratory Notebook: Any sensible laboratory notebook, to be used only for this lab, is suitable. You will turn in either carbon copies, or scans or Xerox copies of your notes, retaining the original notebook for your own use. Please be sure that what you submit is legible and clear.

Laboratory Attire: The Essentials: Long, loose-fitting pants, full shirt, shoes which cover the feet, departmentally-approved safety glasses, tie-back for long hair.

Course Objectives

CHM 3120L is an introductory laboratory course in Analytical Chemistry. By the end of the semester, students are expected to demonstrate:

- proper laboratory techniques for quantitative chemical measurements including accuracy on unknowns
- knowledge of a select group of analytical methods
- competence in data analysis and preparation of basic laboratory reports

Grading

Your grade will be determined by the accuracy of your results, the quality of your reports, the quality of your laboratory notes, your competence in essential laboratory manipulations, and your performance on written quizzes.

Accuracy	6 @ 70 points	420
Reports and Notes	7 @ 70 points	490
Practical Exams	3 @ 40 points	120
Written Quizzes	4 @ 45 points	<u>180</u>
		1210 total

The following grading scale will be used:

A (88.0–100%), A- (86.0-87.9%), B+ (81.5-85.9%), B (78.5-81.4%), B- (74.5-78.4%), C+ (71.5-74.4%), C (67.0-71.4%), C- (64.5-66.9%), D+ (60.0-64.4%), D (57.0-59.9%), D- (53.0-56.9%), E (<53.0%).

Notes:

- 1) Prior to the first lab, visit the e-learning site and review Preliminary Handouts 1-5: laboratory safety, basic lab rules, laboratory notebook, laboratory reports and fundamental techniques. Also read the handout for Experiment #1.
- 2) A minimum of 30 out of 70 accuracy points will be given if the experiment is performed, the results are calculated correctly and deadlines are met.
- 3) For each of the six experiments you will write concise formal laboratory reports. Reports are due at the beginning of your laboratory period during the week specified. The laboratory experimental guidelines will contain questions for each experiment. These are designed to help you prepare for the written quizzes. Written answers are not required as part of the reports. A report template is provided for the Soda Ash lab.
- 4) A 10 point penalty will be assessed each time a result or report is submitted late. The maximum permissible late time is one week.
- 5) Each student is expected to pass laboratory practical exams on three essential analytical skills (use of the analytical balance/weighing by difference, quantitative transfer/use of a volumetric flask and use of a pipets). The tests will be given by the TA during the regular laboratory period at times mutually acceptable to both the student and the TA.
- 6) Four written quizzes will be given on the dates specified on the schedule. You will be allowed to see your graded written quiz, but it must be returned to the TA before leaving lab.
- 7) Attendance is required at all scheduled laboratory periods, unless you are informed otherwise by your TA.
- 8) Once an unknown result has been submitted, no repeat work on that unknown is allowed.
- 9) Students are expected to obey the University of Florida Honor Code, detailed at <https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/>. Violations will be reported to the Office of Student Judicial Affairs.
- 10) Make-ups will be granted only when justified. If you know ahead that you will have to miss lab, notify your TA and Dr. Smith in advance. If you are sick and cannot reach anyone before lab, you will have to present written evidence of the illness.
- 11) If you are involved in a laboratory accident, you must go to the infirmary for treatment.
- 12) Students requesting classroom accommodation must first register with the Dean of Students Office. The Dean of Students Office will provide documentation to the student who must then provide this documentation to the instructor when requesting accommodation.

13) Lab preparatory videos are available at: <http://www.chem.ufl.edu/ugrad/labanalytical.shtml>

Laboratory Schedule

Note: Because of holidays, different sections may be working on different experiments during any given week. Regardless, each section will follow the sequence of activities given below.

Dates	Preparation	Lab Work	Quizzes	Results Due
Begin August 29 Week 1	Read Handouts 1-6 Read Experiment 1 Watch video: Lab Techniques	Check in Experiment 1 Balance use Pipet use/calibration		
Week 2	Read Handout 7 Read Experiment 2	Begin Soda Ash Titrations HCl/NaOH titrations KHP/NaOH titrations		Experiment 1 report and lab notes
Week 3	Watch ascorbic acid video Read Experiment 3 Review handouts to prepare for Quiz 1	Finish Soda Ash Titrations Prep KIO_3 and $\text{Na}_2\text{S}_2\text{O}_3$ Standardize $\text{Na}_2\text{S}_2\text{O}_3$	Quiz 1 and Deadline for Weighing Practical	
Week 4		Standardize $\text{Na}_2\text{S}_2\text{O}_3$ Ascorbic acid titrations		Soda Ash report and notes due
Week 5		Finish Ascorbic acid	Quiz 2 Deadline for Pipetting Practical	
Week 6	Read Experiment 4 Watch Spec Fe video	Spectrophotometric Fe		Ascorbic Acid: Report and lab notes
Week 7		Finish Spec Fe		
Week 8	Read Experiment 5 Watch ISE video	Chloride Ion Selective Electrodes	Quiz 3 and deadline for volumetric flask practical	Spec Fe report and notes
Week 9	Read Experiment 6	Fluorescence of Quinine; Standard additions		ISE: report and lab notes
Week 10	Read Experiment 7	Do lab 7: TBA	Quiz 4	Lab 6 due; report and notes
Week 11		Check Out		Lab 7 due; report and notes
