

ORGANIC DIVISION GRADUATE SEMINARS—FALL SEMESTER 2016

Department of Chemistry, University of Florida

CHM 6390 and CHM 6391

Most talks will be held on THURSDAYS in ROOM 207 LEI. When an outside speaker is speaking during the Thursday organic seminar time, the student seminars will be held on TUESDAYS in ROOM 309 LEI. L/R=Literature/Research Talk, R=Research Talk on research at UF. All talks should be 25 ± 2 min + 3 min for discussion. If a student cannot speak for a good reason (e.g., away on official business), please notify the course instructor immediately.

Important note: Grades will be given for the Organic Seminar. The grades will be based on quality and delivery of slides, clarity and comprehensibility, timing, and having given proper notice of their title (see below). Remember that seminar attendance and course registration (CHM 6390 or 6391) is mandatory for graduate students in the 2nd, 3rd, and 4th years, but all students, including those in their first year are strongly encouraged to attend and participate in the discussions. Students who are registered and do not present will receive a U if their attendance drops below 75% of the Tuesday/Thursday (and all Tarrant lecture) seminars in any semester. For students who present and have attendance of less than 67%, they will receive one grade lower than that assigned on the basis of their presentation. The only exception is a teaching assignment with a written statement sent to Frank Farley not later than the first Wednesday after the start of the semester.

***ALL SPEAKERS MUST ***

GIVE THE TITLE OF THEIR PRESENTATION to Mr. Frank Farley (f.farley@ufl.edu)

10 DAYS PRIOR TO PRESENTATION DATE (or receive 1 grade penalty)

All change requests must be accompanied by supporting letter signed by Division Head, Dr. R. Castellano

Notes: Faculty Supervisor appears after name; # = year in seminar program; L/R = Literature/Research; R = Research)

All seminars are Thursday 4-5PM, unless otherwise noted.
