Chemistry 3610  
Inorganic Chemistry  
Fall 2019

Lecturers  
Adam S. Veige, CLB 412b  
email through canvas course site

Daniel R. Talham, CLB 412a  
email through canvas course site

Office Hours  
M periods 7-8;  
T and Th, periods 3-4  
CLB 412

Teaching Assistants  
Tianyu Zhang, email through canvas course site  
(CLB 414: M period 4, 10:40-11:30 am; W periods 7-8, 1:55-3:50 pm)

Yuwen Tao, email through canvas course site  
(CLB 414: W, F period 4 and F period 7)

Lecture Hours

| Class #23616 | T, Period 1 - 2 (7:25 AM – 9:20 AM)  
Th, Period 2 (8:30 AM – 9:20 AM) |
|--------------|----------------------------------|
| Class #11495 | T, Period 5 - 6 (11:45 AM – 1:40 PM)  
Th, Period 6 (12:50 PM – 1:40 AM) |

Textbook  

Supplementary Text: Additional readings will be made available on the UF e-learning site:  
[https://lss.at.ufl.edu/](https://lss.at.ufl.edu/)

G. Wulfsberg  “Foundations of Inorganic Chemistry”  
University Science Books, 2018

Helpful Texts  
Cotton, Wilkinson, Gauss, *Advanced Inorganic Chemistry*  
Cotton, *Chemical Applications of Group Theory*

Course Learning Objectives  
Students will:

1) Understand the composition of atoms
2) Gain a working knowledge of symmetry and group theory
3) Apply group theory to solving the electronic structure of inorganic complexes
4) Apply group theory to understanding the spectroscopy of inorganic complexes
5) Understand the periodic trends of inorganic aqueous ions
6) Learn to draw, recognize, and assign the 3-dimensional structure of inorganic complexes
7) Understand the interaction between ligands and metal centers
8) Learn the reaction mechanism of coordination complexes and apply kinetics and solve rate equations
9) Assimilate new knowledge and apply it towards solving problems centered on inorganic structure and bonding and the physical properties of coordination complexes

**Grading**

Progress Test 1. 100 points (20%) Thursday, Sept 19th, in class
Progress Test 2. 100 points (20%) Thursday, Oct. 24th, in class
Quizzes (4) on Homework. 100 points total (20%) Tuesday, Sept. 3rd, in class
Tuesday, Oct 1st, in class
Tuesday, Oct. 15th, in class
Thursday, Nov. 14th, in class
Final Exam. 200 points (40%) Tuesday, Dec 2nd, in class

(approximately half of the final exam will be on "new" material since Test 2 and half will be cumulative.)

The following anticipated grade cut-offs will not be raised: From 500 total points, A(420), A-(400), B+(380), B(360), B-(340), C+(320), C(300), C-(280), D+(260), D(240), D-(220)

**Note: you have two weeks to request a re-grade of an exam or problem set.** After two weeks the score will be final. Warning: we photocopy exams and problems sets and will check with the copy prior to re-grading.

To review the current UF grade point equivalencies go to: https://catalog.ufl.edu/UGRD/academic-regulations/grades-grading-policies/

**Conflict Exams**

CHM 3610 manages all conflicts with scheduled assessments and examinations in accordance with University policy.

https://catalog.ufl.edu/UGRD/academic-regulations/attendance-policies/#absencestext

Unavoidable absences by students from examinations are allowed if properly documented and disclosed to the instructor at least one week prior to the anticipated conflict. Permitted absences may include, but are not limited to: religious observances, sanctioned sporting events, and other UF exams if the other course has a higher course number than CHM 3610. In all such cases, students will be given the opportunity to take
a conflict exam.

Unpredicted absences due to medical illness are not covered under the above conflict exam policy. If the time and severity of the illness is severe enough to make continuation in scholastic activity impossible for the rest of the term, a medical withdrawal is strongly advised. If needed, please consult the Dean of Student’s Office for policy and procedural advice on medical withdrawal.

If a medical condition resulting in the student’s absence during a scheduled exam is unexpected, relatively minor, and can be recovered from relatively soon, we request that the student -- as soon as he or she is healthy, which is our first concern -- provide verifiable documentation of the medical condition to the course instructor within a timely fashion of the scheduled exam.

**Accommodation for Students with Disabilities:**

Students with disabilities requesting accommodations should first register with the Disability Resource Center (352-392-8565, www.dso.ufl.edu/drc/) by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.

**Lecture:**

Chemistry 3610 will survey modern inorganic/organometallic concepts of bonding, reactivity, and physical properties.

**Problem Sets:**

Problem sets will be assigned approximately weekly. Answers will be provided prior to the due date. Problem sets will not be graded, but quizzes and some questions on tests will closely follow assigned homework questions. Working on homework with a partner or in groups is strongly encouraged.

**Class Attendance:**

Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies that can be found at: https://catalog.ufl.edu/UGRD/academic-regulations/attendance-policies/#absencestext

**Honesty Policy:**

All students admitted to the University of Florida have signed a statement of academic honesty committing themselves to be honest in all academic work and understanding that failure to comply with this commitment will result in disciplinary action. This statement is a reminder to uphold your obligation as a UF student and to be honest in all work submitted and exams taken in this course and all others.
Software Use: All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.

Student Privacy: There are federal laws protecting your privacy with regards to grades earned in courses and on individual assignments. For more information, please see:

Feedback

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at [https://gatorevals.aa.ufl.edu/students/](https://gatorevals.aa.ufl.edu/students/). Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via [https://ufl.bluera.com/ufl/](https://ufl.bluera.com/ufl/). Summaries of course evaluation results are available to students at [https://gatorevals.aa.ufl.edu/public-results/](https://gatorevals.aa.ufl.edu/public-results/).

**DISCLAIMER**

This syllabus represents our current plans and objectives. As we go through the semester, those plans may need to change to enhance the class learning opportunity. Such changes, communicated clearly, are not unusual and should be expected.
