

General Chemistry II CHM 2046 (Lopez, Period 5, Fall 2021)

*The instructor reserves the right to make changes or corrections to this syllabus at any time.
Students will be notified when any changes are made via an announcement on canvas.*

Course Overview

DESCRIPTION: CHM 2046 and CHM 2046L constitute the second semester of the two-term sequence of General Chemistry, CHM 2045/2045L - 2046/2046L. Prerequisite information and credit suitability can be found in the Undergraduate Catalog. Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies that can be found at: <https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>

COURSE OBJECTIVES: As both a general education requirement and majors course, CHM2046 serves to teach: the scientific method, skills for problem solving, general chemistry knowledge, and a connection to the principles that govern the natural world.

LECTURE: live (F2F) classes at room CLB-130 (Lectures: M, W, F. Period 5: 11:45 am-12:35 pm), Lectures will be recorded by Media-site (link will be provided at Canvas).

<p>Lectures: August 23rd through December 08th Instructor: Dr. Simon E. Lopez Office: LEI #312 (located at Leigh Hall). Also, a “zoom” link will be provided alternatively. Check on Canvas. E-mail (for administrative purposes only): simonlopez@chem.ufl.edu</p>
--

<p><u>Office Hours:</u> LEI 312. (Also, a zoom link will be provided) M,W,F 12:45 pm - 2:30 pm</p>

MATERIALS:

Required: Top Hat Subscription (only for in class questions).

Recommended: Chemistry Textbook by Silberberg (8th edition) + Other College level General Chemistry Books. There is an option to opt-in to the Silberberg 8th edition eText for a discounted price via UF All Access for a limited time. (copies of the 8th ed and solution manual are available in the Marston Science library).

Optional: eBook of Student Solutions Manual made specifically for this course. Title: CHM 2046 – SSM ISBN: 9781307629750 and can be purchased here: <https://create.mheducation.com/shop/> through McGraw Hill or through UF Bookstore.

Required: Non-graphic / non-programmable scientific calculator. You may **not** use your phone as a calculator.

Technology Requirement: To ensure the most effective learning environment, it is important that you are equipped with the following: reliable internet connection, regular access to a laptop or desktop computer with an operating system and web browser (specifically Google Chrome is usually the best for Canvas) and also webcam, microphone, and speakers for virtual discussions sessions and zoom office hours.

Note: The University of Florida provides various software licenses to students free of charge or at discounted rates. Please visit <https://software.ufl.edu/software-listings/> to access products that may interest you, for example Microsoft Office 365 ProPlus.

GRADES: Grades for the term will be determined as follows:

3 Progress Exams	60%
Final Cumulative Exam	23%
Online Homework (HW)	8%
Worksheets (WS)	2%
Weekly Post-Lecture Quizzes (PLQ)	4%
Top Hat in class questions (TH)	3%
TOTAL	100%

The following grade cutoffs will be used (these are non-negotiable):

92-100% = A	88-91.9% = A-	84-87.9% = B+	80-83.9% = B	76-79.9% = B-
72-75.9% = C+	68-71.9% = C	64-67.9% = D+	60-63.9% = D	56-59.9% = D-
< 56.0% = E				

Information on current UF grading policies for assigning grade points can be found at:

<https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx>

POSTED GRADES: Should a student wish to dispute any grade received in this class, the dispute must be in writing (via e-mail to simonlopez@chem.ufl.edu) and submitted to the instructor within one week of the grade being posted to canvas. After one week has passed from when the grade was posted and the student made aware of the posting of the grade(s) via an announcement on canvas, the instructor considers those grades final.

ONLINE HOMEWORK (HW): Eight percent of the course grade (8 %) will be based on online homework assignments through the Canvas website of CHM2046. Each assignment has a displayed deadline for earning full credit; assignments that are late can be completed for half credit (maximum 24 h later, contact Dr. Lopez). Students that miss a homework deadline due to an excused absence can ask for an extension by contacting the instructor. You can earn up to 8 % toward your grade by completing these assignments.

IN CLASS TOP HAT QUESTIOS:

After the Drop/Add period ends, lecture participation will be facilitated via the Top Hat student response system (<https://tophat.com/>). You will receive instructions (Canvas) by Top Hat on how to register for usage of the system. You'll be able to use your smart phone or laptop or tablet or any other applicable device. No clickers required. Three percent of the course grade (3 %) will be based on performance on in-class Top Hat questions. You can earn points in class by correctly answering Top Hat questions (1 point per correct answer + 1 point per participation). No "makeup" Top-Hat options will be offered for any reason - no exceptions.

WEEKLY POST-LECTURE QUIZZES (PLQ): After the Drop/Add period ends, you will have two (2) weekly quizzes related to content previously covered in lectures before the due date for each quiz. Quizzes will contain usually 5-6 questions each related to lecture content. Questions can be structured in multiple

formats (*i.e.* multiple-choice, multiple-dropdowns, fill in the blanks, numeric entries, etc) and must be answered in a total time of 30 minutes. PLQs will be due every Tuesday & Thursday (11:59 pm). These quizzes will be available every Monday and Wednesday morning from Canvas, you should carefully read the instructions for every quiz before you start. Check periodically (daily) your canvas site of the course, emails and announcements. For any missed quiz, check the policy applied for missed exams described below in this syllabus (Exam Absences). Same policy will apply in this case.

CONTACTING THE INSTRUCTOR / OFFICE HOURS: Emails are for administrative purposes only, and not for distance-instruction. All academic inquiries must be made during office hours (at LEI 312; but also a zoom link will be provided) or before/after lectures (by previous appointment by zoom meeting). Please be prepared before coming to office hours, bring specific questions and your previous work.

DISCUSSION CLASSES + WORKSHEETS (WS): The Discussion Classes meet every Thursday and your attendance is expected (attendance will be checked by your TA during the zoom session). The time of your discussion section is synchronous to the posted schedule, as it is the time you must be present. Your discussion section will contain weekly worksheets that will count toward your overall grade (2%). You must go to your assigned discussion section to receive credit for the worksheet. Groups of approximately 3-4 students will be assigned by your TA to work on it together. Any grade discrepancy needs to be addressed within a week of grades posting to canvas. Discussion sessions will be held online using Zoom under the guidance of your graduate TA. You must meet during your scheduled discussion session with your TA who will coordinate the session. Attendance will be taken (2 pts) as well as participation (3 pts). To receive credit for your WS (5 pts) you must attend the zoom meeting and upload your completed WS before 11:59 pm the same day of your discussion. Your attendance and participation will be recorded during the discussions. If you are more than 5 minutes late, then you forfeit your participation points for the day. If you are not present during the first 25 minutes of discussion period, then you forfeit your attendance points for the day. To account for technical issues, one day of attendance/participation points will be dropped for all students. All further absences will be marked as a 0.

Audio/Video Presence Policy: For discussion sections, the participation portion of your grade for this class will be calculated on the basis of your attendance and your participation in class activities. Since the pedagogical approach of this course depends heavily on student engagement and interaction, you are required, at a minimum, to participate in class activities through the audio function of Zoom. Your video presence is invited as well. As in all courses, unauthorized recording and unauthorized sharing of recorded materials are prohibited. Full audio and video presence are required for discussions and office hours employing zoom.

CHEMISTRY LEARNING CENTER (CLC): There is free help to be had from graduate student teaching assistants Monday through Friday via office hours in Zoom: the TAs schedule will be announced through Canvas. Your discussion TA will have office hours on Zoom, but you may go any TA's scheduled office hours (listed in Canvas) to get help on questions pertaining to chemistry. Additionally, there is the teaching center located on the ground floor of Broward Hall (they use to offer periodical reviews previous each progress exam and the final exam). Its web site is <http://www.teachingcenter.ufl.edu>.

CANVAS (<http://elearning.ufl.edu>): Here you will find the syllabus, gradebook, files, class announcements, and other pertinent info for the course. It is your responsibility to check Canvas often to make sure that you do not miss important announcements and to ensure that your gradebook is accurate. For computer assistance, visit <http://helpdesk.ufl.edu/>.

CLASS DEMEANOR: In order to have an optimal learning environment, the classroom needs to be free of disruptions. Therefore, it is expected that students come to class on time and leave only when class is concluded by the instructor, and that the class is not disrupted by student talking or cell phone noises (in case of zoom meetings).

University of Florida
CHM 2046 General Chemistry 2
Fall 2021; Course Schedule

Instructor: Dr. Simon E. Lopez, 312 Leigh Hall (Office).

E-mail: simonlopez@chem.ufl.edu (for administrative purposes); Phone: (352)392-9700.

E-Learning (Canvas): <https://lss.at.ufl.edu/> (will be updated regularly).

Classes: live (F2F) at CLB-130 (M,W,F; Period 5: 11:45 am-12:35 pm).

Location: CLB-130.

Office Hours: M, W, F (12:45 a.m. – 2:30 p.m.) at LEI #312. Also, a Zoom link will be provided.

Week	Dates (suggested to watch lectures)	Topics (# of Lectures)	Chapters*
Aug 23 rd	Aug 23,25,27	Review of Chemical Kinetics; Reaction Rates; Activation Energy; Reaction Mechanisms; Catalysts (3)	Ch. 16
Aug 30 th	Aug 30; Sep 01,03	Gas-phase and Heterogeneous Equilibria; Le-Chatelier's Principle (3)	Ch. 17
Sep 06 th	Sep 08, 10	Reaction yield: Optimization (2)	Ch 17
Sep 13 th	Sep 13,15,17	Brønsted-Lowry acid-base potential and equilibria (3)	Ch. 18.1-18.8
Sep 20 th	Sep 20 Sep 22 Sep 24	Lewis Acid-Base, Electrophile-Nucleophile, reactions and mechanisms (1) Exam 1 review (during class time) (1) Acid-Base Titrations and Buffers (1)	Ch. 18.9 Ch 16-18.9 Ch 19.1
Sep 22nd (Wednesday): Progress Exam 1 (8:20-10:20 pm); Cumulative Ch. 16-18			
Sep 27 th	Sep 27, 29; Oct 1 st	Acid-Base Titrations and Buffers (3)	Ch. 19.1-19.2
Oct 4 th	Oct 4,6	Acid-Base Titrations and Buffers (2)	Ch. 19.1-19.2
Oct 11 th	Oct 11,13 Oct 15	Solubility Equilibria, selective precipitation (2) Complex ions (1)	Ch. 19.3 Ch. 19.4
Oct 18 th	Oct 18 Oct 20 Oct 22	Complex ions and Amphoteric Hydroxides (1) Exam 2 review (during class time) (1) Equilibrium Thermodynamics (1)	Ch. 19.4 Ch 16-19.4 Ch. 20
Oct 20th (Wednesday): Progress Exam 2 (8:20-10:20 pm); Cumulative Ch. 16-19.4			
Oct 25 th	Oct 25, 27, 29	Equilibrium Thermodynamics (3)	Ch. 20
Nov 1 st	Nov 1,3,5	Equilibrium Thermodynamics (1) Oxidation/Reduction Potential: Redox Reactions (2)	Ch. 20 Ch. 21
Nov 8 th	Nov 8,10,12	Electrochemistry and Equilibria; Voltaic & Electrolytic Cells (3)	Ch. 21
Nov 15 th	Nov 15 Nov 17,19	Electrochemistry and Equilibria; Voltaic & Electrolytic Cells (1) Transition Metals (2)	Ch 21 Ch 23
Nov 22 nd	Nov 22	Transition Metals (1)	Ch 23
November 29th (Monday): Progress Exam 3 (8:20-10:20 pm); Cumulative Ch. 16-23			
Nov 29 th	Nov 29 Dec 1,3	Review for Exam 3 (during class time) (1) Introduction to Nuclear Chemistry (2)	Review for Exam 3 Ch. 24
Dec 6 th	Dec 6,8	Introduction to Organic Chemistry (2)	Ch. 15
December 11th (Saturday): Final Exam (10:00 am-12:00 pm); Cumulative Ch. 15-21+23,24			
<i>Holidays (no classes): Sep 6th (Labor Day), Oct 8-9 (Homecoming), Nov 11 (Veteran's Day), Nov 24-27 (Thanksgiving)</i>			

EXAMS: Exams are 120 minutes each and up to 30 questions. The topics covered on each exam may include the previous material which the student needs to have mastered. Since CHM-2046 concepts are cumulative the exam questions reflect that. Exams will be administered at night from 7:20 pm to 10:20pm (Eastern time) via Honorlock. Exam questions will consist of questions like the HWs/PLQs/Practice Problems/worksheets you have completed on Canvas or TH in class questions. So you can expect numeric entry, multiple dropdowns, multiple answer, true/false, multiple choice, matching, and multiple fill in the blanks. You must use a non-graphing non-programmable scientific calculator on exams (with log, ln, root, and exponent (scientific notation) functions).

All exam grade disputes must be performed within one week of the scheduled exam date.

To alleviate the stress of exams, we have incorporated an **“average/replace” policy** (the lowest of the three progress exams will be replaced by the average of the three progress exams). This “average/replace” policy will help to minimize the impact of a single poor performance but it will not completely disappear. For example, if a student has: Exam 1 score of 190/200, Exam 2 score of 150/200 and Exam 3 score of 180/200, then their average/replace score will be 173/200 and it will replace the original Exam 2 score. **Any and all exam grade disputes must be performed within one week of the scheduled exam date.** 5 points will be deducted from your score if you neglect to sign the Honor Pledge question at the end of every exam.

HONORLOCK: Honorlock will proctor your exams this semester. The Exams will be available on exam day from 7:20 to 10:20 pm (you will have 120 minutes to finish your exam). If you start it at 9 pm you will only have 1 hour and 20 minutes. Honorlock is an online proctoring service that allows you to take your exam from the comfort of your home. You DO NOT need to create an account, download software or schedule an appointment in advance. Honorlock is available 24/7 and all that is needed is a computer, a working webcam, and a stable Internet connection. <https://warrington.ufl.edu/covid-19/information-for-for-students/honorlock-student-guide/> more info on Honorlock

To get started, you will need Google Chrome and to download the Honorlock Chrome Extension. You can download the extension at www.honorlock.com/extension/install

When you are ready to test, log into Canvas, go to your course, and click on your exam. Clicking "Launch Proctoring" will begin the Honorlock authentication process, where you will take a picture of yourself, show your ID, and complete a scan of your room. You will need a small handheld mirror so you can show your computer screen to the camera and also show underneath your table or desk. Honorlock will be recording your exam session by webcam as well as recording your screen. Honorlock also has an integrity algorithm that can detect search-engine use, so please do not attempt to search for answers, even if it's on a secondary device.

Good luck! Honorlock support is available 24/7/365. If you encounter any issues, you may contact them by live chat, phone (855-828-4004), and/or email (support@honorlock.com).

EXAM ABSENCES: Absences will be handled in accordance with official UF academic regulations. For more information, see <https://catalog.ufl.edu/UGRD/academic-regulations/>. See below for further clarification for two different types of situations.

(1) Conflicts with other events: Acceptable reasons to miss a scheduled exam include conflicting evening exams in courses with higher course numbers, religious holidays, military obligations, special curricular requirements (e.g., attending professional conferences), or participation in official UF-sanctioned activities such as athletic competitions, etc. For more information on such absences see the official UF Policy at <https://catalog.ufl.edu/UGRD/academic-regulations/attendance-policies/#absencetext>). If you must be absent for an exam due to a documented and approved

conflict known in advance, you must e-mail your instructor the documentation at least one week prior to the scheduled exam and an early conflict exam will be scheduled for you.

(2) Missing an exam due to an emergency or sudden illness: If you are absent for an exam due to an unpredicted documented medical reason or family emergency, you must contact the instructor as soon as possible, and you may be asked to have your excuse verified by the Dean of Students Office (DSO). Your instructor will follow UF academic regulations in evaluating the notification and/or documentation received by you or by the DSO on your behalf. Once your instructor is satisfied with the validity of your exam absence a make-up exam will be scheduled after a reasonable amount of time, i.e., before the end of the semester. If your documentation is deemed insufficient to excuse your absence you will receive a zero on the missed exam.

HONOR CODE: UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Honor Code (<https://sccr.dso.ufl.edu/policies/student-honor-code-student-conduct-code/>) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor or TAs in this class. **5 points will be deducted from your score if you neglect to sign the Honor Pledge question at the end of every exam. You will receive a 0 for the exam and no average/replace, if cheating has been detected.**

DISABILITIES: Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the disability Resource Center by visiting disability.ufl.edu/students/get-started. It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation (use canvas email). The student is responsible for scheduling the exam dates with the DRC. Students with disabilities should follow this procedure as early as possible. The DRC has 4 business day policy to submit Accommodated Testing Requests (ATRs).

UF MULTICULTURAL & DIVERSITY AFFAIRS: Department within the Division of Student Affairs. Multicultural and Diversity Affairs (MCDA) celebrates and empowers diverse communities and advocates for an inclusive campus for all students across identities. MCDA is located on the second level in the student union. <https://multicultural.ufl.edu/>

U MATTER, WE CARE: Your well-being is important to the University of Florida. The U Matter, We Care initiative is committed to creating a culture of care on our campus by encouraging members of our community to look out for one another and to reach out for help if a member of our community is in need. If you or a friend is in distress, please contact umatter@ufl.edu so that the U Matter, We Care Team can reach out to the student in distress. A nighttime and weekend crisis counselor is available by phone at 352-392-1575. The U Matter, We Care Team can help connect students to the many other helping resources available including, but not limited to, Victim Advocates, Housing staff, and the Counseling and Wellness Center. Please remember that asking for help is a sign of strength. In case of emergency, call 9-1-1.

COUNSELING AND WELLNESS CENTER: Visit counseling.ufl.edu/ or call 352-392-1575 for information on crisis services as well as non-crisis services.

UF TEACHING CENTER (CLAS): Broward Hall, 352-392-2010 or to make an appointment 352-392-6420. General study skills and tutoring. teachingcenter.ufl.edu/. Check: <https://teachingcenter.ufl.edu/>

INCLUSIVE LEARNING ENVIRONMENT: We embrace the University of Florida's Non-Discrimination Policy, which reads, "The University shall actively promote equal opportunity policies and practices conforming to laws against discrimination. The University is committed to non-discrimination with respect to race, creed, color, religion, age, disability, sex, sexual orientation, gender identity and expression, marital status, national origin, political opinion or affiliations, genetic information and veteran status as protected under the Vietnam Era Veterans' Readjustment Assistance Act." We are committed to fostering an open and inclusive classroom and laboratory environment in our College, where every student, guest instructor and contributor feels valued. If you have questions or concerns about your rights and responsibilities for inclusive learning environment, please see your instructor or refer to the Office on Multicultural & Diversity Affairs Website: <http://www.multicultural.ufl.edu/>

EVALUATIONS: Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at <https://gatorevals.aa.ufl.edu/students/> . Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl/>. Summaries of course evaluation results are available to students at <https://gatorevals.aa.ufl.edu/public-results/>.

GENERAL EDUCATION PROGRAM OBJECTIVES:

Physical science courses provide instruction in the basic concepts, theories and terms of the scientific method in the context of the physical sciences. Courses focus on major scientific developments and their impacts on society, science and the environment, and the relevant processes that govern physical systems. Students will formulate empirically-testable hypotheses derived from the study of physical processes, apply logical reasoning skills through scientific criticism and argument, and apply techniques of discovery and critical thinking to evaluate outcomes of experiments. These objectives will be accomplished through participation in the course lectures and discussion sections, and individual work done on homework assignments and assessments. This course satisfies the General Education requirement in the Physical Sciences. A minimum grade of C is required for general education credit.

GENERAL EDUCATION STUDENT LEARNING OUTCOMES: The following learning outcomes will be assessed through online assessments and examinations.

Area	Institutional Definition	Institutional SLO
CONTENT	Content is knowledge of the concepts, principles, terminology and methodologies used within the discipline.	Students demonstrate competence in the terminology, concepts, methodologies and theories used within the discipline.
COMMUNICATION	Communication is the development and expression of ideas in written and oral forms.	Students communicate knowledge, ideas, and reasoning clearly and effectively in written or oral forms appropriate to the discipline.
CRITICAL THINKING	Critical thinking is characterized by the comprehensive analysis of issues, ideas, and evidence before accepting or formulating an opinion or conclusion.	Students analyze information carefully and logically from multiple perspectives, using discipline specific methods, and develop reasoned solutions to problems.

SPECIFIC GOALS OF CHM2046:

You will be required to analyze scientific concepts and think critically. This means being able to answer both quantitative (mathematical) and conceptual (qualitative) multiple choice problems in a limited period of time. Additionally, you will have to write or orally communicate during your discussion periods. We will

also demonstrate how these topics can be applied to the scientific method and how observation and experimentation leads us to the development of scientific theories. To achieve this, students will be introduced to the following concepts from the textbook. You will review the importance of chemistry in our everyday lives. You will be required to utilize the methods of science as a logical means of problem solving through critical thinking. This means you must analyze information carefully and logically from multiple perspectives, using discipline specific methods, and develop reasoned solutions to problems. To ensure your competency in these concepts you will be required to complete online homework assignments and take quizzes and exams that require critical thinking, analysis of problems and drawing conclusions.

Critical Thinking: Critical thinking skills are essential in the general chemistry course. There are six criteria by which we promote critical thinking: 1. Information acquisition: Identifying and differentiating questions, problems and arguments. 2. Application: Assessing the suitability of various methods of reasoning and confirmation when approaching a problem. Students are taught to develop hypotheses and to find support and limitations associated with their hypotheses. 3. Analysis: Identifying and analyzing stated and unstated assumption and using logical reasoning to evaluate different viewpoints. 4. Synthesis: Students are encouraged to formulate questions and problems, construct arguments to address such questions and be able to effectively communicate conclusions. 5. Communication: In discussion of alternative points of view, students will be encouraged to criticize or defend their arguments with the use of logical reasoning and evidence. 6. Evaluation: Assessing the quality of evidence and reasoning to draw reasonable conclusions.

Mathematics: It is crucial in the general chemistry course to be competent in mathematics. Listed are the criteria by which we promote understanding and application of math: 1. Information acquisition: Students learn to select data that is pertinent to solving a problem. 2. Application: Use of algebraic, geometric and statistical reasoning to solve problems. 3. Analysis: Interpret and draw conclusions from formulas, graphs and tables. 4. Synthesis: To associate patterns and observations to more abstract principles and to consider specific applications of such principles. 5. Communication: Communicating information symbolically, graphically, numerically and verbally. 6. Evaluation: Estimate and verify solutions to mathematical problems to determine reasonableness, compare alternatives and select optimal results and understand the limitations of mathematical and statistical methods.

DISCLAIMER: This syllabus represents my current plans and objectives. If those need to change as the semester progresses, then the changes will be communicated to the class clearly.
