

**Instructor**

Jeff Rudolf  
Office: 302G Scott Family Chemistry Building (SFCB)  
Phone: 352.294.7221  
E-mail: [jrudolf@chem.ufl.edu](mailto:jrudolf@chem.ufl.edu), or Canvas email

**Class Periods**

Monday, Wednesday, and Friday, Period 7 (1:55 pm – 2:45 pm)  
Classroom: FLI 109

**Office hours**

Tuesday 4:00 pm – 5:00 pm, Thursday 8:30 am – 9:30 am)  
Instructor office hours will be offered in CCB 302G

**Course Objectives**

This class focuses on the chemical and biochemical aspects of antibiotics, their mechanisms of action and methods of (self-)resistance, and current challenges and opportunities in antibiotic research. After completing this course, the student will be able to: (i) identify and describe the major classes of antibiotics and their targets, (ii) recognize the common mechanisms of antibiotic resistance, (iii) discuss traditional and state-of-the-art (bio)chemical methods for antibiotics research, and (iv) analyze and interpret key concepts from primary literature on current antibiotics research. Students will also gain experience in oral and written scientific communication.

**Recommended Texts**

*There is no required textbook for this course.* Primary instructional resources will be papers and reviews from the current literature. These materials will be provided online on the course e-Learning site (<http://elearning.ufl.edu>). Some lecture material will be based on:

*Antibiotics: Challenges, Mechanisms, Opportunities, Walsh, C. and Wencewicz, T.*

**Prerequisites**

CHM 3218 or CHM5305 or permission of the instructor.

**Class Meetings**

Class meets Monday, Wednesday, and Friday 1:55 pm – 2:45 pm in Flint 109. The typical week will consist of one day of lecture, one day of student-led group discussions, and one day of student-led journal club. This course is designed to be interactive and encourage discussion, therefore attendance and participation are required. A tentative course schedule is available at the course e-Learning site.

If the professor or any member of his family is quarantined due to COVID illness or exposure, the course may be temporarily taught synchronously online via Zoom. If this happens, you will be notified. If a student is ill or quarantined due to COVID illness or exposure, recorded lectures, slides, and breakout questions will be made available online. Excused absences are consistent with [university policies](#) in the undergraduate catalog and require appropriate documentation.

**Grading**

The final course grade will be based upon participation during class, assignments, and presentations. All assignments must be uploaded to Canvas as PDFs. If using paper & pen, you are required to SCAN your documents and upload a single PDF. Photos will not be graded and given a grade of 0. If your handwriting is poor, you will be asked to type up written assignments. Failure to do so may result in a grade of 0 if your handwriting cannot be read. Blank or corrupt submissions will result in a grade of 0.

Here is a breakdown of the approximate total points in the course (subject to change):

<b><u>Assignment</u></b>	<b><u>Points (200 total)</u></b>
Topic questions	52 (4 pts each)
Topic figures	13 (1 pt each)
Presentations	95
Participation	40 pts

Letter grades will be assigned based on the approximate grade ranges:

<b>Letter Grade</b>	<b>Total Points</b>
<b>A</b>	184 – 200
<b>A-</b>	180 – 183
<b>B</b>	164 – 179
<b>B-</b>	160 – 163
<b>C</b>	144 – 159
<b>C-</b>	140 – 143
<b>D</b>	120 – 139
<b>E</b>	<120

For more information on current UF grading policies, see [here](#).

### **Make-Up Policy**

No makeup assignments or exams will be given. If an exam or assignment will be missed due to active military duty, religious holy days, or official University activities, the student is required to provide documentation of such absences at least two weeks in advance. Assignments that are missed due to pre-excused absences will not be counted against the student in the final grade.

### **Grading Errors and Regrades**

Mistakes happen and grading errors can be especially frustrating. I will do my best to make sure that you are always kept up to date with your performance in the course and post your grades in a timely manner. It is your responsibility to make sure that your grade on Canvas reflects the scores you receive on assignments and bring it to my attention ASAP when you notice a discrepancy. If you feel that a grading error was made on a particular assignment you have one week from the date the grade was posted to Canvas to request a regrade. Regrades will include a rescore of the entire assignment and may result in a lower score. To request a regrade you should post a comment on the assignment in Canvas including the question that was graded incorrectly and why you think your answer is correct.

### **Student Responsibilities**

Students are expected to arrive to class on time and behave in a manner that is respectful to the instructor, assistants, and to fellow students. Opinions, questions, and answers given by other students should be respected in discussion, and conversations that do not contribute to the discussion should be held at minimum, if at all.

In response to the current COVID situation, the following policies are encouraged to maintain your learning environment, to enhance the safety of our in-classroom interactions, and to further the health and safety of ourselves, our neighbors, and our loved ones.

- Masks or other approved face coverings are voluntary and welcomed in class if a student prefers to wear one during class and within buildings. Regardless of vaccination status, mask usage is a responsible and vital way of preventing transmission of COVID. Faculty may also ask for mask usage in their offices during office hours or one-on-one meetings (with a provision for remote office hours or meetings as an alternative).
- Keep eating and drinking to a minimum.
- If you have not been vaccinated, please [consider](#) starting the process immediately. You can schedule a vaccination appointment at ONE.UF. If you are vaccinated but have not had a booster shot, please consider getting it. Please keep in mind that being vaccinated for COVID-19 is the best way to protect yourself and others from the potentially life-threatening effects of the virus. Your action in this regard may help ensure the health and safety of yourself, your fellow students, and the faculty and staff with whom you interact (and their families).
- If you are experiencing COVID [symptoms](#), STAY HOME! Please do not come to an in-person class. Call your primary care provider if you are ill and need immediate care or the UF Student Health Care Center at 352-392-1161 to be evaluated. You will not be penalized, and your classmates, assistants, and instructor will thank you for helping to keep them and their families safe.

### **Privacy Statement**

If any classes are on Zoom, students who participate with their camera and microphone engaged, or utilize a profile image, are agreeing to have their video, audio, and/or image recorded. If you are unwilling to consent to the recording of any of these, be sure to keep your camera off and do not use a profile image, and solely use the chat function. The chat will not be recorded or shared. Recording will not normally be made during breakout sessions.

Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or in preparation for, a criminal or civil proceeding. All other purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor.

A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and the faculty or lecturer during a class session.

Publication without permission of the instructor (or any students/assistants on the recording) is prohibited. To “publish” means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. Additionally, a recording, or transcript of a recording, is considered published if it is posted on or uploaded to, in whole or in part, any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third-party note/tutoring services. A student who publishes a recording without written consent may be subject to a civil cause of action instituted by a person injured by the publication and/or discipline under UF Regulation 4.040 Student Honor Code and Student Conduct Code.

## **Academic Honesty**

UF students are bound by The Honor Pledge, which states: “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.” On all work submitted for credit by students at UF, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The [Conduct Code](#) specifies a number of behaviors that are in violation of this code and the possible sanctions.

## **Course Evaluation**

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is [available](#). Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or [here](#). Summaries of course evaluation results are available [here](#).

## **Diversity and Inclusion**

We believe in equality for all and we welcome all ethnicities, races, genders, sexual orientations, cultures, faiths, ages, disabilities, and identities with respect. Each student is unique and brings their individual perspectives to our classroom and program. We are committed to maintaining an inclusive environment where each student is welcomed, respected, and supported during their educational and scientific journey.

## **Students with Disabilities**

Students requesting classroom accommodation must first register with the Dean of Students Office. The Dean of Students Office will provide documentation to the student who must then provide this documentation to the Instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester (i.e., the first week).

## **Health and Wellness**

Your well-being is important to the University of Florida. The *U Matter, We Care* initiative is committed to creating a culture of care on our campus by encouraging members of our community to look out for one another and to reach out for help if a member of our community is in need. If you or someone you know is in distress, please contact [umatter@ufl.edu](mailto:umatter@ufl.edu) so that the *U Matter, We Care* Team can reach out to the student in distress. A nighttime and weekend crisis counselor is available by phone at 352.392.1575. The *U Matter, We Care* Team can help connect students to the many other helping resources available including, but not limited to, Victim Advocates, Housing staff, and the Counseling and Wellness Center. Please remember that asking for help is a sign of strength. In case of emergency, call 9-1-1.
